

# Recommended Commentaries by New Testament Book

Keith R. Krell

Choosing the right commentary can be overwhelming. Nearly every book of the Bible has dozens of options, ranging from devotional to highly technical. The recommendations below are my personal favorites for each New Testament book, organized into two categories:

- **Getting Started**—Recommended for personal Bible study, teaching, and sermon preparation.
- **Going Deeper**—Recommended for more advanced exegetical and scholarly study.

My recommendations reflect a historical-grammatical approach to biblical interpretation and affirm the full authority and trustworthiness of Scripture. These are commentaries I have used and continue to recommend because they are exegetically careful, theologically sound, and consistently helpful for understanding God's Word.

## A Note on Multi-Book Commentary Series

Excellent series such as the *Expositor's Bible Commentary*, *Cornerstone Biblical Commentary*, and *ESV Expository Commentary* cover multiple books of the Bible in a single volume, with each book written by a different contributor under the guidance of the series editors. These volumes provide outstanding value for building a well-rounded library, and many individual contributions are excellent.

Because several biblical books share each volume, however, the treatment of each book is necessarily less comprehensive than that of a dedicated, single-volume commentary. For that reason, I have limited this list to standalone commentaries. This is not a criticism of multi-book series but simply reflects my goal of highlighting the strongest individual resources for each New Testament book.

## MATTHEW

---

### Getting Started

Douglas Sean O'Donnell, *Matthew: All Authority in Heaven and on Earth*, Preaching the Word (Wheaton, IL: Crossway, 2013).

*Vivid, illustration-rich commentary aimed squarely at preachers.*
